Welcome to my VisualCV!

You're looking at my new VisualCV. We've reinvented the resume here at VisualCV.com and will soon revolutionize career management. Read more about **our company**, the **benefits** and **great uses** for your own VisualCVs, and once you've reviewed my VisualCV — **get started** creating your own. Or you can pre-register your business for a **Company VisualCV**. Have fun, and let me know what you think.

About VisualCV

VisualCV.com allows professionals to create an online presence that **replaces the traditional resume**. But a VisualCV is not just for job searching. You can use it anytime you need to present your credentials. Think of it as the world's greatest personal business card! Include a link to your VisualCV in your email signature, on your business card, or on your website.

Sharing a VisualCV makes every meeting more effective and every relationship a better fit. And your online VisualCV can complement your current presence within social networks like LinkedIn and Facebook. Or use your VisualCV with your blog posts or in community forums!

Your personal VisualCVs can serve different purposes when sharing with friends, colleagues, clients, prospects, recruiters, or companies. And you have total control over the privacy of your VisualCV. You can share it with the world, limit it to a restricted group, or even a single authenticated individual for ultra-privacy.

Top companies around the country are currently signing up to start receiving VisualCVs in lieu of the traditional Word resume. Companies are also creating their own VisualCVs to share information regarding their culture, job opportunities, career potential and more. Registration for professionals and companies is easy and free. **Get started today!**

About Doug

As VisualCVs General Manager of Operations, Doug oversees all aspects of the business, including product development. Doug has more than 20 years of domestic and international experience in developing and implementing strategic technology initiatives. He is a veteran manager of operations and has a demonstrated capability of moving a startup technology from the research laboratory to the commercial marketplace. Doug has developed numerous go-to-market strategies in his career. While at IBM, he managed the development of core banking software for the rapidly growing Asia-Pacific financial services market. In another position with Science Applications International Corporation, Doug was selected to take an **incubated patented technology** that was subsequently sold in eighteen months for five times the annual earnings and a minority equity position to an outside investor.

Education

Queens University of Charlotte

Master of Business Administration

McColl School of Business
