## Summary

I am a Soul Whisperer<sup>SM</sup> and Life Enrichment educator specializing in healing, mindbody wholeness, spirituality and conscious evolution.

I provide Reiki services (Reiki Training and Healing) for those seeking to make self-empowerment, healing, spirituality and meditation a conscious part of their life.

My approach to Reiki is that it's a way of living with wisdom and compassion, not only a healing art, and definitely not a modality.

I am writing to thank you for all that you are, all that you represent, and all that you have helped me accomplish. I knew from the moment I first met you when you appeared on my radio show, *A Higher Path* that there was something special about you. The aura that you project is one of confidence and knowing coupled with a sincere desire to be of service. You do this in a manner that is soft and nurturing.

-- Ronald L. Magram, Esq.

Pamir,

Reiki as taught by you, has helped me a great deal both physically and mentally/spiritually. As you know I'm not one to give praise freely, and I am a very reserved person. In this instance, however, I would be happy to recommend you to anyone interested in healing and growth.
